DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20, 55-88, drawn to a method of compiling policy data.

Group II, claim(s) 21-36,44, drawn to a method of optimizing complied policy data.

Group III, claim(s) 37-43, 45-54, drawn to a method of registration of protocols.

Inventions of the method of compiling policy data, the method of optimizing complied policy data and the method of registration of protocols are distinct methods. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed each performs a different function.

Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2132

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed(37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment to inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
